

II. Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of the Claims

1. (Currently Amended) An air-bag, the air-bag comprising at least one inflatable region, the air bag having an upper edge provided with a plurality of mounting tabs, each of the plurality of the mounting tabs ~~defining an axis, the axes of the plurality of the mounting tabs~~ having an inclined edge, said inclined edge extending from the upper edge and being inclined to define an angle of less than 90° with respect to the upper edge, and being inclined inwardly toward a ~~region above the centreline~~ lying vertically through a central region of the air-bag.

2. (Original) An air-bag according to Claim 1 wherein the air-bag is in the form of an inflatable curtain.

3. (Previously Presented) An air-bag according to Claim 1 wherein at least one of the tabs is inclined at an angle between 30° and 80°.

4. (Currently Amended) An air-bag according to Claim 1 wherein the upper edge is provided with the tabs including a first group of the tabs positioned near the center of the air-bag and a second group of the tabs positioned outwardly from the center and the first group of the tabs, the angle defined by the second

~~set-group~~ of the tabs being ~~inclined with~~ a more acute angle than the angle first ~~set~~ defined by the group of the tabs.

5. (Currently Amended) An air-bag according to Claim 1 wherein each of the plurality of the tabs is formed of a woven fabric, the fabric having orthogonal warp yarns and weft yarns, the ~~axis~~ inclined edge of each of the angle of the tabs ~~making~~ forming an acute angle with the orthogonal matrix of the warp and the weft yarns.

6. (Cancelled) An air-bag according to Claim 1 wherein the axis of each of the plurality of the tabs being defined by a side edge of the mounting tab.

7. (Currently Amended) An air-bag according to Claim 1 wherein each of the plurality of the tabs ~~being formed of~~ comprises a single layer of ~~material~~ fabric forming the air-bag.
